**Every Rexall Formula Is Public Property—And Always Has Been**

This is an age of inquiry. Not since the time of the Civil War has there been so much agitation in the minds of the people on various subjects.

People "want to know" about everything. We do not say that the public has grown skeptical—quite the contrary. We believe it is a day and age of enlightened, intelligent inquiry after facts.

Each man and each woman now-a-days wants to do his and her own thinking. They are not looking for any concentrated essence of wisdom boiled down and given to them in capsule form. They want to figure out for themselves what is right, and what is wrong, and what to do about it.

Public sentiment has forced the government of the United States to compel patent medicine manufacturers to state on their labels the ingredients of the remedy inside of every package.

We believe that the Rexall remedies have had as much to do with the creation of this sentiment as any other one single element in the country.

Why? Simply because the Rexall remedies, from their inception several years ago, started out on an entirely new line.

The first principle in the Rexall platform was one remedy for each ill—not a cure-all.

Second—no secret combinations. Every formula has always been open to the public; anyone can know what he is taking when he buys Rexall—and always could.

Third—every Rexall remedy has been sold on the basis of "money back" if you are not more than satisfied.

This is frank, square, open-handed business, that's all. But it made Rexall the greatest success in the medicine world in a very short time.

**Rexall "93" HAIR TONIC**

The famous Rexall "93" Hair Tonic is one of the 300 Rexall Remedies. It is composed in chief of Resorcin, Beta Naphthol and Filocarpin. Resorcin is one of the latest and most effective germicides discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which not only destroys the germs which rob the hair of its nutriment, but creates a clean and healthy condition of the scalp, which prevents the development of new dandruff.

Filocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye. This combination of curatives mixed with alcohol as a stimulant, perfects the most effective remedy for hair and scalp troubles known to-day. Per bottle, 50c.

**Poorer-Swett.**

A very pretty wedding took place at the home of Edwin S. Poor, Andover, on Wednesday evening, Oct. 23, when his daughter, Alice, was married to Girdler Jackson Swett of Lynn, Mass. A punctual bride came in the room at 8:30 and the bride came in the room with her father preceded by her sister, Bertha Poor, who was bridesmaid. They were met by the groom and best man, Joseph Houghton of Lynn, Mass., under the marriage bell of evergreen and united by Rev. T. H. Derrick, who used the double ring service.

After the ceremony refreshments were served in a dainty manner in the dining room. The bride was gown in white dotted Swiss muslin with Valenciennes lace over white silk and carried lilies of the valley. The bridesmaid wore white muslin over pink silk and carried chrysanthemums.

The presents were numerous and costly, among them a solid silver porringer, an heirloom in Mr. Swett's family and at least 150 years old.

Mr. and Mrs. Swett went to New York on a short wedding trip, after which they will remain at the old home that she has so long and faithfully kept for her father.

**Bell With a Tragic History.**

The bell recently placed in the belfry of the Baptist church at Bryant Pond has an interesting and tragic history. It first hung in the lighthouse on Minto's ledge near Boston harbor, which was wrecked in a great storm April 17, 1851, with the loss of two men in the tower. The bell was recovered a few years later and for 50 years it hung in the tower of the woolen mill at Turner which was burned Sept. 3, 1905.

The proprietor, T. Faulkner, lost his life in the fire, and the bell, which was life in the fire, was recast and then given by Mr. Faulkner's daughter to the Baptist church at Bryant Pond.

The following names were favorably balloted upon: Joseph V. Hunting, Charles Hurst, Mrs. Clara Bowker, Adna Herrick, Edgar Andrews, Mattie Herrick, Edna Rich, Bertella Towne, Addie Towne, Addie Burns, Georgie Cash. A beautiful dinner was served in the hall above.

Prof. J. E. McClintock was the chief speaker. He is at the head of the extension department of the experiment station of the Agricultural college, at the University of Maine. He spoke on "The care and feeding of the dairy cow."

The cow is susceptible to the treatment she receives; must be well housed, well fed and have pure water. The best food is June grass but as that does not last the year round he gave the following formula: 2 1/2 pounds unseeded meal, 6 pounds Ajax flakes, 2 1/2 pounds corn meal or hominy flakes, 1 1/2 pounds cottonseed meal, 1 1/2 pounds bran. This costs 14 cents per day. It doesn't include the clover hay which should be fed, and an ordinary cow requires about 30 pounds of this. The cost is then brought up to 17 cents per day for each cow.

Another feed which he recommended is 25 pounds ensilage, 12 clover hay, 10 pounds oat and pea hay, add 3 pounds bran to this and it will cost 17 cents per day.

A good profit on a cow is from 25 to 30 cents a day.

Why? Because it is annoying, untidy. And mostly, because it almost invariably leads to baldness. Cure it, and save your hair. Get more, too, at the same time. All easily done with Ayer's Hair Vigor, new improved formula. Stop this formation of dandruff!

Does not change the color of the hair.

Formulas with each bottle. Show it to your doctor. Ask him about it, then do as he says.

The new Ayer's Hair Vigor will certainly do this work, because, first of all, it destroys the germs which are the original cause of dandruff. Having given this aid, nature completes the cure. The scalp is restored to a perfectly healthy condition.

Hallowe'en Party.  
The teacher and scholars of the Town house district gave a Hallowe'en party at the Town house, Friday evening, Nov. 1. The room was prettily decorated, representing a woodland scene. The floor was strewn with leaves and pine needles and many of the children were dressed in costumes of the forest. The room was entirely lighted by Jack-o'-lanterns of every size and description, big ones, little ones and middle-sized ones. In one corner was seen a genuine wigwag in front of which shimmered the "Witches Kettle."

Inside the wigwag sat a noted fortune teller, who if you cared to cross her palm with silver would read your future from a pack of cards. In another secluded nook beneath the branches of the ornate table laden with corn balls, home made candy and rosy cheeked apples. Two Indian maids sold these goodies to all who wished to buy.

In another corner stood a huge Jack-o'-lantern with silken cords issuing from its nose and mouth, drop a penny in "Dame Nature's" palm, pull one of the cords and you had your fortune almost in a nutshell.

The entertainment consisted of a diaphanous, Dame Nature's Donation Party. The cast of characters was as follows:

Dame Nature.....Miss Stackpole  
Policeman.....Miss Stackpole  
Jockey.....Miss Stackpole  
Indian Maids.....Edna and Louisa Cummings  
Crown.....Miss Stackpole  
Old Lady.....Miss Stackpole  
Flower Girl.....Miss Stackpole  
After the dialogue was a ghost dance followed by a ghost story.

At the close of the entertainment came the games, ducking for apples in a tub of water, biting at an apple swinging on a string, stabbing a pumpkin in which had been carved the letters of the alphabet.

There was a large crowd and everyone seemed to have a jolly good time. Much credit is due the teacher, Gladys Stackpole for her interest and untiring energy in preparing this entertainment. The proceeds of the evening were \$7.08 and will be used to buy something for the school-room.

The Homeless Cat.

There is one duty which falls to the lot of the stayer which impresses everyone with the heedlessness of those who study their own pleasure, forgetful of all that may follow their selfishness. That is the gathering in of the cats and kittens which are left in the country in large numbers by those who have gone back home. It seems strange that after so much has been said and written about this form of cruelty that it should still continue, but so it is. People who would shudder at the thought of seeing you cut your finger will keep two or three kittens through the summer season because they "amuse the children." They are so cunning in the way they will go away and leave the little helpless creatures to freeze and starve and suffer more than can be told.

It is almost incredible that they grow wild so quickly but it takes only a day or two of "shooting" away from where they seek friendly shelter, or a few attacks from some of the dogs which are housed and fed in good homes, to make it almost impossible to get near the homeless wanderers. Happily for them there are still some warm-hearted men and women who do have thought for the future and many of these waifs are coaxed into the houses and from there are given into homes found for them.

Once in a while the family cat, seeming to realize that there is to be a change in the domicile, disappears and it is impossible to locate it for several days but usually a little care and forethought will provide against all such emergencies and surely it is far more merciful to put away all those animals which have shared the care and bounty of your home rather than turn them loose to get a living for themselves which they have never been brought up to secure and finally to die from exposure and suffering. Don't do it! Remember we are responsible for our treatment of both the human family and the dumb creatures about us.

# \$25,000.00

As a guarantee that the story of Father John's Medicine is absolutely true, the

sum of \$25,000 will be given to any charitable institution if it can be shown otherwise. Half a century ago, when the late Father John O'Brien of Lowell, Mass., recommended to his parishioners and friends the prescription that had restored him to health and strength, the people named it Father John's Medicine. Its power to make strength and build up the body explains why it cures Colds and all Throat and Lung Troubles.
